Services/Resources...

Counseling

Counseling and Academic Success Center staff assist students in personal and academic endeavors. NMCC was able to expand its counseling staff as the result of a federal Student Support Services grant. The TRiO program provides assistance to first-generation college students, students with disabilities, and students with low incomes.

Computer Resources

Computers are located in the library, academic success center and throughout the campus for student use. Additionally, wireless network access is available in all academic, dining and residence facilities. There is a campus portal that allows the campus community 24-hour access to vital college information, including class schedules, financial aid, Course Requirement Analysis (CRA), grades and more. All members of the campus community are provided a campus e-mail account, which is used as the primary means of communication.

Flexible Class Locations/Times

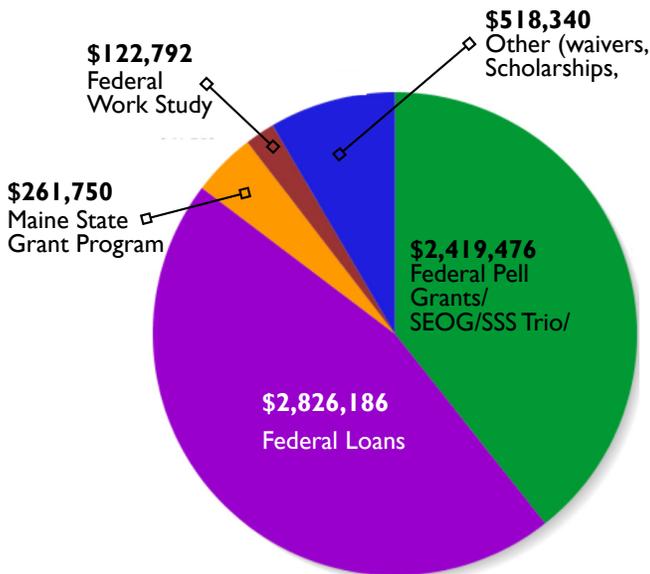

In addition to the college's main campus in Presque Isle, NMCC offers its courses at various off-campus locations around the County. A wide range of credit and non-credit courses are also offered in the evening, on weekends and during the summer and winter mini-terms.

Continuing Education

Continuing education programs, courses and seminars are offered to train, retrain or upgrade occupational or academic skills, whether for employment, to improve on-the-job performance or to enhance opportunities for advancement. These programs are offered on campus or at the business or industry site. Customized training is available upon request. To learn more, contact the College's continuing education division at 768-2768.

Financial Aid

- ~ More than 71% of all NMCC students receive some form of financial aid; 87% of full-time students get financial aid.
- ~ About 94% of students who apply for aid get it.
- ~ In 2013-2014, more than \$6.1 million was awarded.

Campus Living...

Residence Halls

Diverse housing options are available:

Andrews Hall: dorm with double and single rooms

Snow Hall: suite-style housing

Apartments: 4-person units

All rooms have wireless computer access, as well as a telephone connection with local service.

During this academic year, 124 students are living on campus. In addition to the convenience of being within walking distance to classes and college resources, these students are able to take part in many social and recreational activities during the year.

Sports

Students interested in sports can participate in soccer, basketball, golf, and hockey. Intramural sports are also offered on campus.

Worth Noting...

Accreditation

NMCC is accredited by the New England Association of Schools and Colleges, Inc. through its Commission on Institutions of Higher Education. Several departments or programs on campus are also accredited through organizations specific to their field:

- The business technology department is accredited by the Association of Collegiate Business Schools and Programs for the offering of its business programs that culminate in the associate of applied science degree.
- The automotive collision repair, automotive technology and diesel hydraulics programs are ASE certified, meeting the National Institute for Automotive Excellence (ASE) standards of quality for the training of technicians in those fields.
- The precision metals manufacturing program is accredited by the National Institute for Metalworking Skills (NIMS), the organization which establishes national industry skill standards in metalworking.
- The associate degree Nursing Program is approved by the Maine State Board of Nursing, and accredited by the Accreditation Commission for Education in Nursing.
- EMS Programs are approved by Maine EMS, as Northern Maine Community College is a state authorized EMS Training Center. The Paramedic program, which offers students an associate degree or certificate, is nationally Accredited by the Commission on Accreditation of Allied Health Education Programs.
- The Medical Assisting program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of Medical Assisting Education Review Board.
