

Employers Speak to CAD Students

Above: Steve Kelly and Paul Sproul, from Precision Welding and Fabrication, Inc. in Westbrook, visited senior computer-aided drafting students last week. They gave a presentation on structural steel detailing and demonstrated the CAD software used to generate their shop drawings. They spent time afterwards interviewing the seniors for potential employment. Also, later that week, Carey Grant (1991 NM alum), from Cives Steel Fabricators, Maine Detailers Division in Augusta, gave a presentation on steel detailing within their company using a different software package. He also interviewed students for potential employment.
