ACADEMIC DRESS

The academic costume originated in Europe about seven hundred years ago. It consists of the gown, hood and cap. Now much modified, each level of academic achievement still retains a distinctive gown and hood.

Faculty members and guests in today's procession are robed in gowns and hoods which represent the institutions from which they received degrees. Hoods are lined with the official color of the college or university conferring the degree. The velvet edging of the hoods varies in width according to the degree. Its color is distinctive of the subject to which the degree pertains.

The caps are usually of the same material as the gown. The tassel is black or the color appropriate to the subject, except that the doctoral may have a gold tassel.

Students being awarded an associate degree today are wearing the academic hood which signifies this college. All students wear the tassel on the right. It is shifted to the left when the degree is awarded.

ACADEMIC HONORS

Students wearing a gold cord in today's procession are graduating from Northern Maine Community College with honors, having achieved a 3.5 or greater cumulative grade point average.

Students wearing a gold stole in today's procession are members of the college's chapter of Phi Theta Kappa, an international honor society for two year colleges. Criteria for membership includes maintaining a 3.5 grade point average.

Students wearing a royal blue stole in today's procession are members of the college's chapter of Alpha Beta Gamma, an international honor society for students in business programs at two year colleges. Criteria for membership includes maintaining a cumulative grade point average of 3.0.

Guests...Please allow the graduates to fully exit the gymnasium before you exit.

You are invited to join the graduates, faculty and staff for a reception in the Reed Commons following Commencement.
